Dear Dr. Lederberg:

We would very much like to have a picture of you suitable for use with your column. If you could send one we would be most appreciative. A five by seven or smaller print would be fine.

6. A most frightening but important column on Marburgvirus. You may well have established its name.

Dear Howard

This one was drowned by the Czech crisis, and as I could very readily understand, escaped the 8/24 issue. But it has a message I am particularly anxious to convey to the Washington audience. Is there any way of squeezing it in elsewhere in the Post; or save it for local use at your own discretion if my current weekly contribution seems rather dull. Or even give the "syndicate" a vacation that week, as a last resort.

Sincerely
John
